About This Program

Do you find yourself looking at the night sky and wondering, what if I could reach for the stars? Well, join us in this 2 day experience where we bring you just a bit closer to the stars.

What You Will Do

- Learn about Space and Space exploration through interactive visualization
- Get up close and personal with NASA astronauts during ask me anything sessions
- Lots of Physics and engineering through various workshops
- Coding, Programming, Presentation and team building
- Prizes up for grabs for the best teams

Why You Should Sign Up

01

2 day experience where we bring you just a bit closer to the stars.

02

Meet NASA astronauts Tony Antonelli and Steve Swanson in person

03

Make an interactive space map

04

Explore the universe in Omni-Theatre.

05

Hands-On workshop

06

Certificate of participation/completion

07

Chance to take a close up photo with your favorite astronauts.

Day One

- Introduction to Prototyping
- Exploring the universe in the Omni-theatre

*All students who register need to bring their own laptop

Day One (Continued)

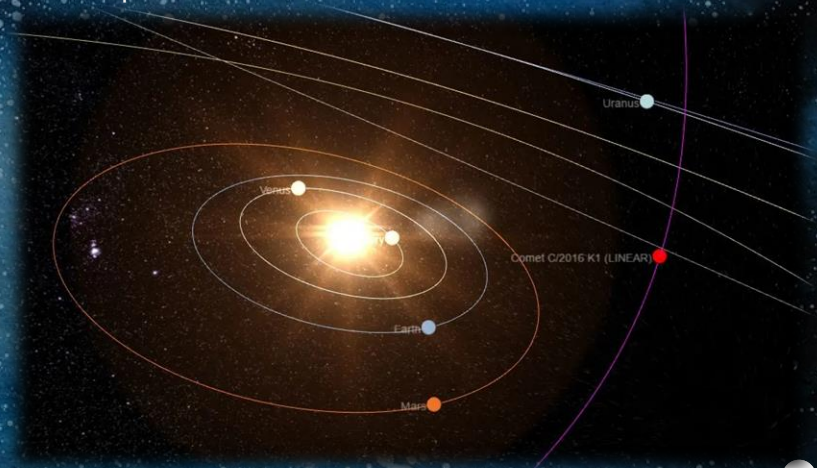

- Wonders of the universe talk by NASA astronaut
(Meet either NASA Astronaut Tony Antonelli or Steve Swanson)
- Combine Art and Tech to make an interactive space map

Tony Antonelli
NASA Astronaut &
Space Shuttle Pilot

Steve Swanson
NASA Astronaut & ISS
Commander

*All students who register need to bring their own laptop

Day Two

- Physics and Engineering workshops on Rockets and Flight
- Debate with your team on space travel.

Tony Antonelli
NASA Astronaut &
Space Shuttle Pilot

Steve Swanson
NASA Astronaut & ISS
Commander

*All students who register need to bring their own laptop
